

The #1 Selling Direct Drive Truckmount in the World!

CDS 4.8™

Industry's Most Proven Design!

NEW!
3 YEAR WARRANTY

We've Got Your Back!

“ I need a machine to clean any surface at anytime of the day or night at any location. It needs to leave me room in my rig for the rest of my equipment, be easy to maintain, and make me money for a long, long time.

I need a **HydraMaster CDS** ”

Made in the USA

HydraMaster
We've Got Your Back

CDS 4.8™ The #1 Selling Direct Drive T

“ I need my machine to make money ANYTIME, ANYWHERE. ”

When security, quiet operation and performance are most important, you rely on your CDS Direct Drive.

Night time commercial work? Bad weather days where you need to protect your equipment from the elements? Jobs in areas where your van needs to be secure? Say “YES” to those jobs and make that cash with a CDS Direct Drive truckmount from HydraMaster.

Space Saving

The CDS is designed to utilize the space between the driver's and passenger's seats, preserving valuable cargo space. This is made possible by positioning the blower and pump

between the seats, and the recovery tank behind the seats, creating ideal weight distribution for greater passenger safety, vehicle handling and performance. The result: All the advantages of a powerful truckmount while preserving your valuable cargo space. Utilizing minimal space in a standard van, the CDS is a real space saver. The CDS installed leaves you with the most floor space and cubic foot space left of **ANY DIRECT DRIVE TRUCKMOUNT** on the market today.

“ I need my machine to make money for **L O N G**, long time. ”

Reliable. Durable. Dependable.

CDS Direct Drive Truckmounts, the industry's longest proven track record of performance and success. HydraMaster longevity and reputation means we will be here for years to come to support you. Maximum return on investment and highest resale value in the industry.

The CDS™ Design Concept

The concept behind the design of the CDS is to provide a powerful, reliable cleaning system that uses the power and heat source already provided by the host vehicle. The rugged and reliable engineering that has, for over two decades, made the CDS the most popular van powered system in the industry is taken to a new level with the CDS 4.8 Overdrive. The result is a vehicle that you can outfit as you choose; with a complete custom interior package including fresh water tank, reels, shelves, and accessories.

“ I need my machine to leave enough room in my rig for all my other money making gear. ”

Smallest footprint in the industry. Compact, space saving design allows for flexibility in van set up.

Perfect for hauling restoration equipment (air movers, dehumidifiers, directed heat), power wands, RX20's, upholstery tools, rotary hard surface tools, chemical solutions, hauling rugs and furniture and more. Say “yes” to virtually any hard or textile surface cleaning or restoration job and make that cash with a CDS Direct Drive truckmount from HydraMaster.

CDS™ Electronic Speed Control

ESC (Electronic Speed Control technology), has enabled us to increase vacuum performance by 30% and reduce fuel consumption to equal a mid-sized slide-in truckmount at just 1.5 gallons per hour. From the standpoint of economical operation, the CDS just makes sense! This technology is exclusive to the CDS.

Truckmount in the World!

NGV
NATURAL GAS VEHICLE

“ I need my machine to make money when my technicians are running it. ”

Simple-to-operate and easy to train your cleaning techs.

The CDS is the perfect choice for fleet operations. More of the largest carpet cleaning and restoration companies in the USA choose the HydraMaster CDS as their truckmount of choice more than any other truckmount.

Number One in User-Friendly Operation

The simple elegance of the CDS has made it the choice of both independent operators and national cleaning franchises. The simple-to-use, easy-to-maintain CDS is well known in the cleaning industry for quick operator training, low maintenance and easy repair.

“ I need my machine to make money no matter what surface I’m cleaning. ”

Flexible and powerful performance allows for many uses.

The CDS give you consistent hot cleaning solutions and pressures for whatever you are cleaning. A perfect cleaning machine and ideal for flood and water damage restoration work, pressure washing, stone, tile and concrete cleaning and more. More types of jobs, more money for you.

Approved for CNG Converted Vans.

“ I need my machine to make me money even if I can’t turn my own wrench. ”

Lower maintenance and ease of serviceability reduces costs and downtime, plain and simple.

Your CDS comes with a nationwide network of factory authorized warranty and service centers featuring the best distributors in the industry. The open design of the CDS makes for easy access to internal components, centrally located, protected wiring box, easy access to all drain hoses, means the daily, weekly and periodic maintenance is a breeze.

Continued, Uninterrupted Cleaning

The 4.8's large capacity, 100 gallon MaxxAir recovery tank delivers the convenience of continued, uninterrupted cleaning. A newly designed easy-clean stainless steel lint basket makes daily maintenance less of a chore. The LED status panel tells the operator what's going on with the machine. The chemical jug holder keeps things looking sharp.

Salsa™ CDS (optional)

Finally, a van-powered machine that can keep up with the heat of slide-in units! HydraMaster engineers have perfected the water heating system that keeps you in the heat - even when using two wands, or high-production tools like the RX-20.

The Salsa is the hottest blower heat exchanger on the market! The CDS Salsa produces working temperatures as high as 235°F*.

If you've been looking for a machine with the simplicity, reliability and ease of operation of a direct drive and the high heat of a slide-in, the CDS Salsa is the machine for you!

**As tested in Ford installation. Other vehicles may vary.*

Made in the USA

- ✓ #4007 Tri-Lobe Blower
- ✓ Standard Electric Clutch
- ✓ 1200 PSI Pump
- ✓ Residential, Large Commercial
- ✓ Longer Hose Runs
- ✓ 400+ CFM
- ✓ 650 lbs
- ✓ RPM Settings: 1,300 (low), 1,400 (medium), 1,500 (high)

Standard Equipment

- Runtime hour meter
- Chemical flow meter (0-10 GPH)
- Chemical flow control valve
- Vacuum gauge (0"-30" Hg)
- Solution pressure gauge (0-1,500 PSI)
- Solution pressure adjustment
- Pre-wired pump-in switch
- Pre-wired AWDS Switch
- Fresh water inlet
- Water system drain valve
- Engine tachometer (0-3,500 RPM)
- Electronic throttle control
- Electrical circuit protection (resettable)
- Temperature control valve
- Solution pump switch
- 3 speed control
- CDS Power Transfer package
- Front compartment cowling & armrests
- Top-mounted gauge cluster & control console
- Dual wand solution connections
- Dual wand vacuum connections
- Freeze guard system
- Safety wheel chocks
- 1 1/2" Evolution wand
- 10 ft x 1 1/2" whip line
- 10 ft x 1 1/2" drain line
- Solution Hose Length: 100 ft x 1/4"
- Vacuum Hose Length: 100 ft x 2"
- Chemical jug holder
- 5 gallon chemical jug
- Operation & maintenance manual
- Embroidered HydraMaster jacket
- Van decal

Scan for more information.

Power Transfer Package

- Double U-Jointed Flexible Shaft
- Heavy Duty Electrically Activated Clutch
- Improved Reliability, Reduced Vibration
- Shaft-Capture Safety System
- High Temperature, High Performance Bearings
- Easy access to maintain zerks

CDS Hose Pass Through Kit

Allows operation of unit with vehicle doors closed and locked. Reduces noise by 30%.

A no-cost option, upon request. One per machine.

Plunger Water Pump

- 4 GPM Volume
- 1200 PSI For Hard Floor Cleaning
- Smooth Operation 3-Stage Plunger Design
- Operator Adjustable Pressure (0-1200 PSI)

Last-Step Chemical System

Equipped with a stainless steel Chemical Pulse Pump. Last-Step Chemical Injection means no chemicals pass through the water pump or heat exchangers.

Multi-stage Thermal Accumulation and Heat Exchanger system

Mounted on the recovery tank, the dual tube & shell heat exchangers tie into the vehicle coolant system, taking advantage of the massive BTU production of the vehicle host engine.

Dominator™ Tri-Lobe Blower

- HydraMaster's Exclusive Design Results in Reduced Noise Compared to Conventional Blowers
- Pulsation and Sound Reduced
- No Grease Fittings, Splash Oil Bath at Both Ends
- Helical Gear Drive for Longer Life
- Oil-Level Sight Windows
- Up to 400+ CFM

Salsa Heat Booster System (optional)

The optional SALSA includes a blower exhaust tube and fin heat exchanger to boost cleaning solution temperature production.

Cleaning Solution Temperatures up to 235°F

VEHICLES: Installation available in GMC/Chevy 2500, 3500 Express vans. Please contact your HydraMaster distributor to inquire on a particular van before purchasing.
